SOUND TRACKING THE SELF *with* Jai Patel

Open your CD case template. Think of a song that makes you happy, or listen to Jai's song in the video. Use your pro marker pens to draw whatever comes to mind. Have fun.

Open your second CD case. Think of a song that makes you want to dance. Jai chooses Charli XCX Pop 2. Try watercolour this time for a different effect. Add marks as you listen.

Open your third CD case. Think of a song that makes you feel confident. Jai chooses *good kid, m.A.A.d city* by Kendrick Lamar. Try collage this time. Tear and stick magazine images that remind you of your song.

For your final CD case. Think of a song that makes you feel nostalgic. Jai choose Melodrama by Lorde, it reminds him of being a teenager. Mix collage, painting and drawing this time.

Now design your album cover. Think of a title that describes your musical journey. Jai chooses *Soundtracking the Self.* Use any materials you like.

As a final touch, make sure to sign your album like a true artist

You will need:

- CD case template
- Pro marker pens
- Watercolour paint or ink
- A gluestick
- Printed images or magazines
- A paint brush
- A pot of water
